

The Matthew R. Simmons

WINDSTORM CHALLENGE

May 10, 2024

The Matthew R. Simmons Windstorm Challenge centers around preparing the next generation of Maine's workforce and inspiring a future of climate solutions. Exposing middle and high school students to the design and engineering process of floating offshore wind turbines not only equips students for college, but for their future career as a whole. With the help of sponsors like you, the ASCC is able to offer this event to students at zero cost including transportation assistance.

Sponsorship Tiers

Platinum \$1000
Diamond \$500
Gold \$250

Recognition on Print Materials	✓	✓	✓
Social Media Shout Out	✓		
T-Shirt Logo	✓
